

AWP & WFP Fundamentals Course
June 6 – 10/June 20 – 24, 2016
Alberta Pipe Trades College

The Alberta Pipe Trades College (APTC) will be running an Advanced Work Packaging (AWP) course from June 6 – 10 and June 20 - 24, 2016. This program is 40 hours in duration and is intended for individuals that will be developing or implementing facets of the Advanced Work Packaging and WorkFace Planning program within a project or organization. These individuals may include AWP Champions, Productivity Champions, AWP/WFP Managers, Workface Planning Leads and Workface Planners. This program may benefit those interested in improving their knowledge and understanding of these industry best practices.

Pre-Requisites: Students are encouraged to watch AWP prior to the first day of class. This video can be found here: <https://www.youtube/watch?v=Z9gny5aJtQ>.

**** Please note that students are required to bring a laptop to class each day.**

Course Format: This program will consist of in class or online learning sessions, collaborative discussions and practical exercises designed to develop knowledge of industry best practices, while also developing skills to apply those best practices in real life situations.

Cost: The cost of taking the AWP & WFP Fundamentals Course is \$2000.00. If you are interested in this course offering, please contact Leanna at (780) 482-9529.
