

# Alberta **PIPE TRADES** College

## Introduction

The Alberta Pipe Trades College is responsive to the educational needs of the construction and maintenance sector throughout Alberta. The school is comprised of dedicated and innovative staff committed to the success of their students.

The Alberta Pipe Trades College apprenticeship program has a need for a full-time instructor to present course material in the welding discipline.

## Description:

Candidates for this position should be energetic leaders, have sound verbal and written communication skills, be committed to student motivation and achievement, and be oriented toward student success.

## Responsibilities:

- Prepare and present lessons, lectures and demonstrations to apprenticeship students.
- Demonstrate procedures and supervise practical shop assignments. Prepare, administer and grade assignments and examinations.
- Maintain student attendance, progress data and records.
- Other related duties such as development of new instructional material and maintenance of instructional equipment.

## Qualifications:

- High School Diploma
- Completion of Alberta Journeyman or Inter-Provincial Red Seal
- Have an Alberta B-Pressure Welders Qualification (or be able to obtain within 6 months of hire)
- 3 to 5 years experience. Welding in the pressure vessel and piping industry would be a definite asset
- Must be proficient with the following welding processes: SMAW, GMAW, FCAW, GTAW, AOC/AOW and SAW
- Familiarity with computers
- Excellent interpersonal skills

Remuneration: Salary will commensurate with education and experience.

Closing Date: October 23, 2015
