

Canadian Piping Trades®

Greetings Members,

We hope you are doing well and are optimistic for 2021. We would like to inform you that all Local 488 Agents and Staff are returning to work in the office effective January 25, 2021, so that we can maintain optimal efficiencies to support our members.

We will now be accepting appointments with Agents and Representatives when necessary. The committees will have the option of meeting in the main building, so long as these meetings are in large open spaces with proper social distancing and protocols in place. Masks are to be worn in all common areas, sanitization and temperature checks required upon arrival.

Appointments are requested to be limited to 30-minute intervals, and members will be informed of the requirements prior to arriving, then escorted out via the southwest entrance when the appointment or meeting is completed. Anyone with possible COVID-19 exposure or any symptoms will be asked to reschedule as per Alberta Health requirements. Please limit office visits to urgent matters for the time being.

Should you require a visit, please contact the appropriate agent/representative to schedule an appointment. Thank you all for your patience and understanding as we slowly start to reopen our offices.

Thank you

Local 488 Management & Staff
